    That's because your Graphic Card sucks.
    When I played on my laptop it always
    crashes. But when I play with my PC it never
    crashes and run smoothly

Hello admins of crotorrent, I don't know if you can read
this but thankyou for giving us free games, a lot of us
here doesn't have that kind of money to buy games, so
thankyou so much! But I'm really sad that this site is
already dead but still as always thankyou so much!
